25X1 3. [redacted] a special  
 25X1 train [redacted] was to run from Wittstock on the Dosse  
 River to Boetzow for the Soviet Army on 16 February.

25X1 [redacted] Comment. [redacted]  
 25X1 [redacted] troop movements in  
 25X1 the area south and west of Wittstock from 11 to 13 February and on  
 25X1 the return to Rathenow on 14 February of elements of the 18th How  
 Arty Brig (US) of the 6th Arty Div, which had been shipped to the  
 area east of Schwerin on 5 trains on 9 and 10 February. This and  
 the present information indicates that a winter maneuver was  
 conducted in the Schwerin-Wittstock area from about 11 to 13 February.  
 25X1 [redacted]  
 25X1 [redacted] troop units departed from Schwerin between 12 and 14  
 25X1 February, it can be concluded that the 94th Gds Mts Rifle Div and,  
 possibly, even elements of the IX Mts Rifle Corps supported by  
 elements of the 6th Arty Div participated in the field exercise in  
 25X1 the area of Schwerin-Wittstock. [redacted]  
 25X1 additional units from Magdeburg, presumably army troops of the Third  
 Shock Army, may have participated. [redacted] Other  
 25X1 components of the 18th How Arty Brig (US) have possibly been shipped  
 on trains [redacted] to the  
 25X1 area of Doeberitz for further field exercises. There has, however, not  
 25X1 been any proof as to this information. In this connection, the train  
 25X1 [redacted] running from Pritzwalk to Brandenburg  
 25X1 on 13 February can be interpreted; it carried elements of the 20th  
 Army AT Arty Brig (US) of the Third Shock Army back to their post from  
 the field exercise.

25X1 [redacted] Comment. According to other information, two troop trains  
 were loaded in Rathenow with elements of the 65th Mort Brig (US) of  
 the 6th Arty Div during the period from 11 to 14 February and, according  
 to the present report, these units are believed to have been shipped to  
 the Grima area for field exercises.

25X1 [redacted] Comment. These 14 trains probably carried elements of the 12th  
 Gds Tank Div. Imminent departures from the Neuruppin area were  
 indicated in previous reports, according to which numerous empty  
 railroad cars had to be made available in this area. Although  
 25X1 Netzeband railroad station is not located immediately near Neuruppin,  
 it is assumed that elements of the division were also loaded there.  
 25X1 [redacted] tanks [redacted] have been loaded in Netzeband on  
 15 February. As also elements of the 2d  
 25X1 light Arty Brig (US) from Doeberitz and two trains from Schoenwalde  
 arrived in the area of Neustrelitz on 11 February, it is assumed that  
 25X1 a large-scale winter exercise, similar to that in the Schwerin-Wittstock  
 area, was started there about 16 February. The train [redacted]  
 25X1 [redacted] en route to Rostock does not fall under this movement;  
 it cannot be accounted for.

25X1 [redacted] Comment. Possibly, the two trains carried elements of the 3d  
 Gds AT Arty Brig of the IV Arty Corps to field exercises in the area  
 west of Berlin, similar to the shipment there of elements of the 6th  
 Arty Div from the Wittstock area.

- 25X1 [ ] Comment. Elements of the 13th Gds Tank Div practiced in the Justerbog area from 8 to 10 February. [ ]
- 25X1 [ ] Comment. It is possible that the two trains carried elements of the unidentified artillery brigade of the Fourth Gds Mecz Army or of the 6th Gds Mecz Div which, together with the 10th Gds Tank Div including components from Brandenburg and units of the 6th Arty Div and 3d Gds AT Arty Brig, were assembled in the area west of Berlin for joint exercises. See also paragraphs 1 and 4 of the Comment.
- 25X1 [ ] Comment. Another train with components of the 34th Arty Div (US). Other elements had gone to Altengrabow from 7 to 11 February on one train. [ ]
- 25X1 [ ] Comment. The identity of four shipments listed in paragraph 1 cannot be determined.
- 25X1 [ ] Comment. The assembly of empty railroad cars for Neuruppin, Halle and Erfurt was previously reported [ ] The assembly of cars for Bernau was confirmed by the departure on 15 and 16 February of trains [ ]
- 25X1 Herzberg railroad station is located along the Neuruppin-Loewenberg line. The 31 flatcars made available for this station may have been used for loadings of the 12th Gds Tank Div.
